BUYERS GUIDE

NOVEMBER 2026:
YOUR BUSINESS DOESN'T STOP - NEITHER DO WE

You're managing margins, meeting deadlines, and keeping operations moving. We're here because we understand that's non-negotiable.

This guide isn't a catalogue. It's built from what your business actually needs - products that work, service that doesn't let you down, and a team that gets why that matters. Whether you're warehousing, moving goods, keeping production running, or delivering retail solutions, you'll find what works.

The difference? We don't just ship boxes. We show up when it counts. Fast dispatch. Expert guidance. Real solutions for real challenges. That's what separates good partners from great ones.

Explore what's inside. But more importantly - reach out. Let's talk about what's working in your operation and where we can do better.

Your success is our business.

From the Team at

TigerPak

REAL SERVICE. BEYOND PACKAGING.

Over two decades, TigerPak has built something that can't be rushed or faked: a reputation for showing up when it matters. We're introducing a strapline that captures who we've become: **"Real Service. Beyond Packaging."**

This isn't marketing speak. It's the moment a customer realizes they can finally stop worrying about supply chains. It reflects our commitment to answer the phone, solve the problem, and keep your business moving.

When You Can Finally Breathe

We understand the burden of unreliable suppliers. You're juggling deadlines, managing inventory, and hoping orders arrive on time. It's exhausting. **"Real Service"** starts with reliability: the right product, right quantity, right specification, without delays or surprises. Our five distribution centres are stocked not to fill shelves, but to fill a gap in your world. Our team answers in seconds because we know you don't have time to wait. Trust is earned by showing up the same way, every single time.

More Than Just What's in the Box

"Beyond packaging" means we're partners in your success, not just sellers. We listen to your challenges, help you find solutions that work, anticipate your needs, and move quickly when things go wrong. We build relationships with your team. Whether you're keeping production running or reducing procurement headaches, we're asking how we can help.

Why Partnership Changes Everything

Think about what it's worth to stop worrying about supply chains. To have one trusted partner instead of juggling five. To pick up the phone knowing someone will answer, someone who knows your business. When you work with TigerPak, you're not just buying products. You're buying peace of mind. That's the real value.

A Promise We Live Every Day

"**Real Service. Beyond Packaging**" is a daily commitment. It lives in how we train our teams, invest in our infrastructure, and show up when it matters most. Because when you succeed, we succeed. That's what real service truly means.

High Performance Shrink Film & Tape

What is Shrink Film?
A plastic film, which will shrink, after being heated.

Heated with the RIPACK® 3000, the LDPE Shrink Film, when wrapped around or covering an item will shrink, as it cools down and fits tightly around the item. The shrink film will not adhere to the item being protected; it will only fuse to itself, as the film is an excellent thermal barrier and will absorb the heat.

- High UV inhibition to withstand more than 2 years of adverse weather conditions.
- Coflex 3 - High performance shrink film.
- Very high level of shrink. Great for protection of products from small skids to large machinery.
- White film is fully opaque for added security and privacy.
- Forms an excellent join and seal on LDPE shrink film. A special formulated PE adhesive tape suitable for heat shrinking.
- Join plastic sheeting with tape before shrinking with RIPACK heat gun. (Page 49)
- Shrink Tape is 150um Heavy Duty.
