

- **Less tension required**
Simply apply the wrap with slight tension
- **Does not need to be stretched around the pallet**
Automatically contracts when applied, providing extra stability
- **High load retention**
Creates a 'strapping' effect on the load resulting in a POWERFUL GRIP and excellent pallet stabilisation
- **Less effort required**
= Less operator fatigue & fewer accidents
- **Excellent puncture resistance**
Wraps corners with ease
- **Unique reinforced edging**
- **Oscillated wound with a cushion of air**
Will 'bounce' if dropped, will not dent or tear reducing the number of damaged rolls
- **Extra length 480m & 420m rolls**

Other Stretch Films

[gripfilm]
Reduced Stretch Wrap Usage!

Usage Comparison - Standard Pallet

CODE	DESCRIPTION
2143	Grip Film Superior 400mm x 480mtr Clear
2144	Grip Film Premium 400mm x 420mtr Clear
2147	Grip Film Superior 400mm x 480mtr Black
2145	Grip Film Premium Dispenser

SAVINGS
40% savings in storage space, transport costs roll change time + downtime

GREAT SELF GRIPPING FILM
Automatically contracts when applied, providing extra stability

FASTER WRAPPING
Reduced 'necking down' means fewer wrap cycles per pallet

NON-SLIP CORE RETENTION
The robust core is designed to interface seamlessly with the dispenser.
