

[grip taper]

THE WORLD'S MOST
PORTABLE, WATER-ACTIVATED
TAPE DISPENSER!

 **800M**
OF WATER ACTIVATED
TAPE APPLICATION
PER BATTERY

Grip Taper is the automatic, water activated, tape dispenser enabling biodegradable reinforced paper tape to be used by operators anywhere. Many operations globally turned to the multifunctional tape dispenser to improve their carbon footprint. Reinforced paper tape provides high security and protection to your parcels, without putting a damper on your environmental efforts.

TOTAL CONTROL

SEAMLESS INTEGRATION

GO ANYWHERE SOLUTION

LIGHTWEIGHT & PORTABLE

HANDHELD AND BATTERY OPERATED:

There are no limits to where the taper can go, overcoming the limitations of desktop machines.

TAPE LENGTH & SPEED SETTINGS:

Grip Taper has multiple tape length and speed settings, enabling the user to adjust as required.

PORTABLE & MOBILE:

May be compact and mobile but is designed to work just as effectively as desktop machines, only taking up half the space of traditional machines.

As part of the Grip Stack system, the elevated grip taper clears messy and disorganized packing benches, making the packing processes much more efficient and less stressful.

CODE	DESCRIPTION	CTN QTY
