DELIVERING CERTAINTY WHEN IT MATTERS MOST

In light of ongoing uncertainty across overseas markets and the current situation in the Middle East, we have made a considered decision not to produce a full printed catalogue at this time, so you are not relying on information that may become outdated quickly. With global supply chains continuing to experience disruption, product availability, lead times, and pricing can change rapidly. Rather than provide a static document that may not reflect real-time conditions, our focus is on giving you the most accurate, up-to-date information at all times. Most importantly, we want you to feel confident you can trust what you see from us, and to know we are committed to being as transparent as possible as market conditions evolve.

To support that, we invite you to explore our website and interactive catalogue, where you can easily browse the full product range, check current availability, and view the latest pricing and product updates in one place. This approach is designed to give you clearer visibility and more timely updates, helping you make confident decisions for your business without surprises. It also allows us to communicate changes quickly and openly when they occur, so you are always working with information that reflects current conditions.

Despite these challenges, there is plenty of positive news that directly benefits your business. With five strategic locations across Australia, you have reliable access to the products you need closer to where you operate, helping reduce delays and improve delivery consistency. Our shelves remain stocked with over 4,000 top-quality products, ready to ship when you need them, so you can maintain continuity in day-to-day operations and avoid unnecessary downtime.

We are also pleased to share an important service improvement for customers in Queensland and beyond: the opening of our **new Brisbane warehouse**. This larger, strategically located facility strengthens your supply options by increasing stock holdings, improving product availability, and enabling faster order fulfilment, with improved access for deliveries and more convenient customer pickups. Above all, our team is here to provide practical support and solutions, and with same-day dispatch available for orders placed by 4pm, you can continue to rely on fast, dependable delivery, backed by clear communication and a commitment to keeping you informed.

That's the **TigerPak** promise: great products, outstanding service, and confidence in every order.

INTERACTIVE CATALOGUE

The smarter way to **source products!**

TigerPak's Interactive Catalogue gives you fast, easy access to the full product range in one streamlined experience — helping you find what you need without the hassle. Designed for speed and simplicity, it helps you save time, improve sourcing accuracy, and make quoting and planning easier.

Built for procurement teams, packaging buyers, operations managers, and business owners planning stock, it keeps everything organised and accessible while reducing paperwork clutter.

It's a smarter way to work — so you can move faster, make better decisions, and stay ahead.
