RECYCLABLE
PAPER

COST
EFFECTIVE

EASY TO
OPERATE

HEAVY
DUTY

The TPC-20 is a heavy-duty paper cushioning machine that creates waved paper pads. The cushioning paper has a larger width, making it suitable for various heavy-duty and fragile packaging applications.

Paper pads are produced on demand, reducing packaging waste and utilizing 100% recyclable paper. Other features include:

- Speed: 18 m/min
- 2 layers of 70 GSM paper
- Fast and efficient compared to traditional paper packaging
- Sustainable and cost-effective solution
- 100% recyclable, reducing waste going to landfill
- Touch-screen control panel that can be detached and reattached via magnet

3 CONVENIENT MODES:

1) Pre-set Length:

Creates pre-set lengths of paper that can be dispensed according to your needs.

2) Automatic Paper Output:

Automatically dispenses a set quantity of paper at a pre-set length.

3) Foot Pedal:

Using the foot pedal to operate the machine, to access a convenient hands-free operation.

Touch-Screen Control Panel with Magnet
